***Allowable Subject Matter***

1. This action is in condition for allowance except for the presence of claims 16-18 and 23, which were previously withdrawn for further prosecution in the response filed on 2/23/06. Accordingly, claims 16-18 and 23 have been canceled.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to anticipate or show in combination all the features of applicant's invention. In claim 1, the allowable subject matter is the introduction of the limitation of a drive unit that is movable up and down and that is structured and arranged to control a vertical position of the holder and to determine, when lowering the holder into the container, when a portion of the weight of said holder and said at least one of the plurality of bags or netting packages has been transferred to the container or to an object in the container by sensing a weight change. It is the combination of a pressure-controlled air cylinder to lower the holder into a container and a drive unit to control a vertical position of said holder with the other claimed elements of the device that are novel over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michelle Lopez whose telephone number is 571-272-4464. The examiner can normally be reached on Monday - Thursday: 8:00 am - 6:00 pm.
